Check whether value stored in column in SQL Server is null or empty string? I want to check whether a value is empty or null in SQL Server. I don't want to do this: SELECT \* FROM MyTable WHERE ISNULL(Name) I want this: SELECT \* FROM MyTable WHERE Name = "" Is there an equivalent of LIKE %? SELECT \* FROM MyTable WHERE Name LIKE "" But this is not allowed. A: To check whether a field or column value is null or empty you can use ISNULL or COALESCE or ISEMPTY. SELECT \* FROM MyTable WHERE Name ISNULL(NULL, '') = "" OR SELECT \* FROM MyTable WHERE (Name ISNULL(NULL, '') = "" OR Name = "") The problem with your query is that it can never return any result because a column's value can never be the same as null! From: ISNULL vs COALESCE in SQL Server 1cb139a0ed
